

Your whole school, *in one sphere.*

Admissions to report cards, attendance to fees, the school bus to the parent's phone. One connected system for every person and every campus.

Fewer registers. *More teaching.*

Most schools run on a patchwork of paper, spreadsheets and chat groups. Every term ends with someone reconciling them. School Sphere puts it all on one set of records.

Before

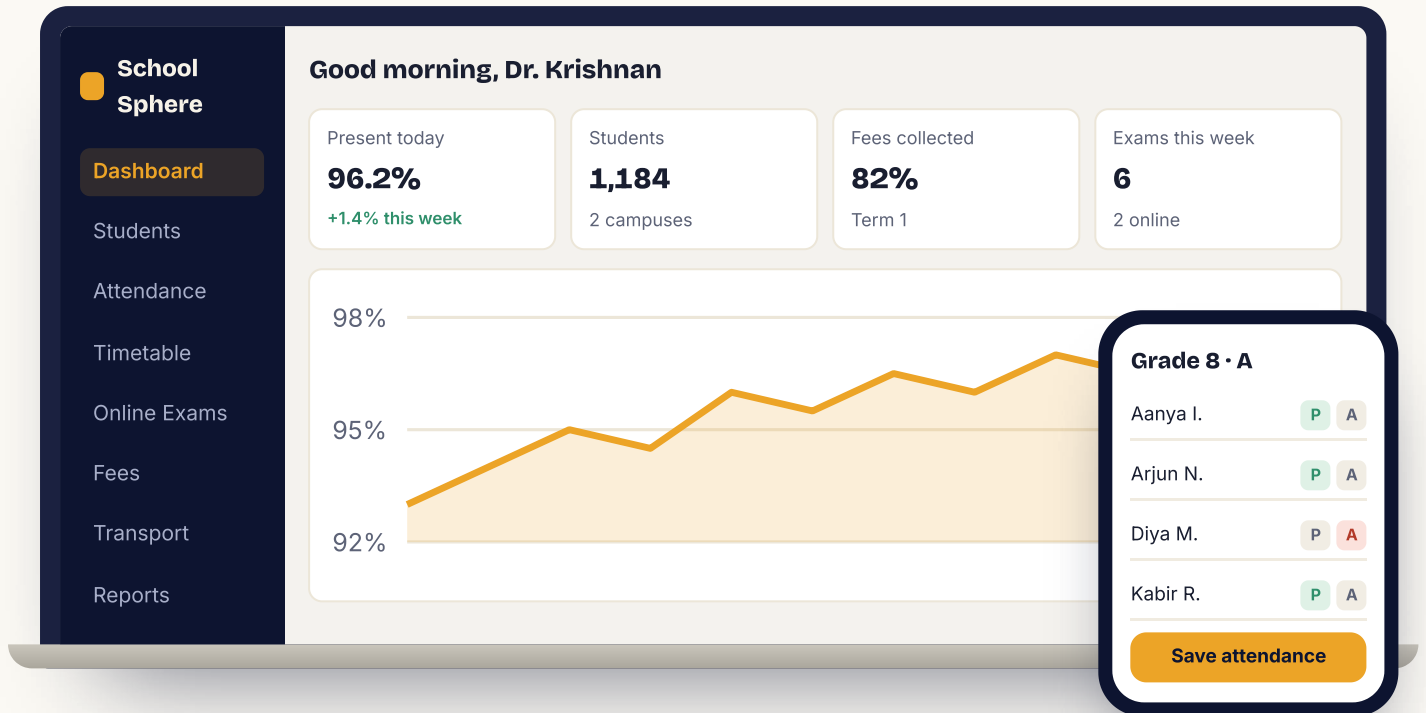

- ✗ ~~Attendance registers totalled by hand~~
- ✗ ~~Fee books and a separate receipt pad~~
- ✗ ~~Marks in one spreadsheet, timetable in another~~
- ✗ ~~Notices lost in parent WhatsApp groups~~
- ✗ ~~Bus, hostel and library run on notebooks~~
- ✗ ~~"Can someone send me last term's report?"~~

With School Sphere

- Attendance marked on a phone, totals instantly
- Invoices, online payments and receipts in one place
- Timetable, marks and report cards that agree
- Announcements that reach every parent's phone
- Transport, hostel and library in the same system
- Live dashboards for every branch, any time

One sign-in for each person. One set of records for the whole school. *Nothing to reconcile at the end of term.*

Calm screens for *busy schools*

Illustrative screens with sample data.

Web app

The full system in any browser, for the office, principals and teachers.

Teacher & student apps

Attendance, homework, exams and results on Android and iPhone.

Parent portal

Attendance, marks, fee payments and messages to teachers.

35 modules. *One system.*

Every module shares the same students, staff, classes and calendar, so information entered once is right everywhere.

■ Core & administration ■ Academics ■ People ■ Finance ■ Campus ■ Engagement & online learning

Start with the modules you need today.

Switch on more as your school grows.

From the first bus *to the last report*

- 07:05** ○ **Route 2 leaves the depot**
Parents check the bus on their phone instead of waiting at the stop.
TRANSPORT
- 08:40** ○ **Grade 8-A attendance is in**
A tap per student; the office sees the whole school by nine.
ATTENDANCE
- 09:00** ○ **Period 1 starts on time**
A teacher is on leave; the substitute was assigned and told yesterday.
TIMETABLE
- 10:30** ○ **The Science unit test opens**
Thirty minutes, shuffled questions, answers saved as students go.
ONLINE EXAMS
- 12:15** ○ **A visitor signs in at the gate**
Pre-approved by the class teacher, signed out at 12:40.
VISITORS
- 15:30** ○ **Homework is set for tomorrow**
It appears in the student app; submissions arrive by evening.
HOMEWORK
- 17:45** ○ **A parent pays Term 2 fees online**
The receipt is issued instantly and the dues report updates itself.
FEES
- 19:00** ○ **The principal reviews the day**
Attendance, collections and results for every branch, on one screen.
REPORTS

Each person sees *exactly what they need*

Management

Every campus, every number, on one screen.

- Branch-wide dashboards and reports
- Fees, payroll and accounts
- Roles, permissions and audit trail

Principals

Know how the school is doing before the first bell.

- Attendance and results at a glance
- Leave and admission approvals
- Timetables and substitutions

Teachers

Less paperwork, more time with the class.

- Attendance from a phone
- Homework, marks and lesson plans
- Online exams and study materials

Students

Everything for the school day in one app.

- Timetable, homework and results
- Online exams and live classes
- Talent Showcase for their best work

Parents

Always in the loop, never chasing.

- Attendance, marks and announcements
- Online fee payment and receipts
- Messages and leave requests

Office staff

Admissions, fees and certificates without the queue.

- Enquiry-to-enrolment admissions
- Bonafide and transfer certificates
- Visitor log and help desk

Online exams, *done properly*

Build exams from a reusable question bank, schedule them for a class, a section or chosen students, and get objective answers marked the moment students submit.

- Six question types, from multiple choice to long answer
- A server-side timer that survives a refresh or lost signal
- Teachers mark written answers, then publish results together
- Question-by-question analysis shows what to revise

Science unit test · Grade 8

24:18

Question 3 of 8 · 1 mark

Which gas do plants absorb during photosynthesis?

☐ A Oxygen

☒ B Carbon dioxide

☐ C Nitrogen

Insights

Attendance trends, students who may need attention and AI-assisted summaries, without building a spreadsheet.

Live classes

Online classes and parent-teacher meetings with recordings, materials and attendance.

Many campuses

Run every branch from one account. Staff see their own campus unless you allow more.

— TRUST

Your school's data *stays yours*

Role-based access

Each role sees only what it's granted.

Secure sign-in

Strong passwords and multi-factor sign-in.

Data isolation

Every school's records kept apart.

Audit trail

Who changed what, and when.

Microsoft Azure

Private cloud storage for every file.

Your rules

Permissions down to single actions.

— GETTING STARTED

1

Set up your school

Branches, classes and roles. We help import your existing data.

2

Invite your community

Staff, students and parents, each with the right access.

3

Run it every day

Our team trains your staff and stays on call.

— PLANS FOR EVERY SCHOOL

FLEXIBLE PRICING

Starter

Essential tools for getting started: students, staff, attendance, basic fees and reports.

MOST POPULAR

Professional

Everything in Starter plus online exams, parent portal, notifications, advanced reports and AI features.

CUSTOM PLAN

Enterprise

Custom modules, integrations, workflows, deployment options and dedicated support.
