School Sphere vs a Typical School ERP

Feature comparison, October 2026

Area	Typical school ERP	School Sphere
CORE SCHOOL OPERATIONS		
Core modules	YES Students, staff, attendance, fees, exams, timetable, library, transport, hostel.	YES All of these, across 37 modules, plus health, visitors, inventory, payroll, accounting, certificates and helpdesk.
Attendance	BASIC Manual register, sometimes one biometric device.	ADVANCED Manual, QR, RFID, biometric and face-recognition modes, range reports, and offline attendance in the teacher app.
Fees & payments	YES Fee structures, receipts, payment gateway.	YES Fee structures, receipts, overdue tracking, and online payment by parents through Razorpay with server-side verification.
Online exams	BASIC Multiple-choice tests.	ADVANCED Six question types, CSV question import, shuffling, server-side deadline, autosave every 1.5 seconds, auto-marking and a manual evaluation queue.
TEACHING & LEARNING		
AI assistant	NO None, or a basic chatbot add-on.	BUILT-IN Ask School AI on every page, a study assistant that answers from school materials with citations, teacher generators (papers, worksheets, lesson plans, homework, report-card remarks), at-risk student alerts, voice, and 12-language translation.
Online classes	LINK OUT Shares a Zoom or Google Meet link.	BUILT-IN Video classes inside the app with screen share, recording, live chat, recurring classes, class attendance and reports.
Syllabus tracking	BASIC Lesson plan upload.	ADVANCED Plan approval, coverage flags (on track, at risk, behind), a "has this been taught?" check on exam portions, and parent view of progress.
Study materials & homework	YES File sharing and homework lists.	YES File sharing and homework, plus AI that answers questions from the uploaded materials.
STUDENT LIFE & ENGAGEMENT		
Talent showcase	NO At most a photo gallery.	UNIQUE Students, teachers and parents post image, video and audio work, with approval, reactions, reporting and a cross-school public showcase.
Extra-curricular	BASIC List of clubs and events.	ADVANCED Houses and clubs with auto-assignment, waitlists, captains, sessions with attendance, event results, approved achievements and sustainability campaigns.
Parent experience	YES Attendance, fees and marks.	RICHER Attendance, fees, results and homework, plus syllabus progress, exam portions, class recordings, the talent feed and a live bus map.
Communication	BASIC SMS and email blasts.	MULTI-CHANNEL Email, SMS, WhatsApp, push and in-app from one screen, with templates, contact groups, scheduled sends and delivery summaries.
TRANSPORT & CAMPUS		
Bus tracking	HARDWARE Needs a GPS device fitted in each bus.	NO HARDWARE Uses the driver's phone GPS, with a live map for admins and parents.
Visitors & health	BASIC Visitor register.	YES Visitor check-in with badges, pre-approved visits and watchlist alerts; health records, checkups, infirmary visits and vaccinations.
PLATFORM & USABILITY		
Help & onboarding	BASIC PDF manual and support calls.	ADVANCED Guided tours on the real screens, role-aware help that opens the right page, a generated user manual, and AI fallback.
Dashboard	FIXED One standard dashboard.	CUSTOMISABLE Widgets users can arrange, with tabs per role (executive, finance, admissions, academics, HR, teacher's day).
Mobile apps	BASIC One app for all users.	YES Separate student, teacher and staff apps, with push notifications.
Multi-school & branding	VARIES Separate install per school or shared login.	YES Own subdomain per school with its name, logo and printed letterhead.
Security & audit	BASIC Username and password.	YES Role-based access, password reset and forced change, MFA and audit logs for the office portal, data export and deletion per school.
Usability	BASIC Standard menus.	YES Dark mode, Ctrl+K quick navigation, and browser push reminders.

Typical school ERP

- Strong on records and administration
- Relies on outside tools for video, AI and tracking
- Limited student and parent engagement

School Sphere

- Full ERP core plus AI, video classes and talent showcase in one app
- No extra hardware for bus tracking
- Built for students and parents as well as the office

"Typical school ERP" describes features commonly found in school management software on the market, not any specific product.
